Re: Hubbs re Stringfellow Superfund Site
Our File No.: 1336-113217

Dear Mr. Olinger:

As you are aware, our office represents Paul Hubbs Construction Company, Inc. (hereinafter "HUBBS"). This letter is our formal response to your office's follow-up information request dated August 17, 2012 and addressed to John A. Boyd, regarding the Stringfellow Superfund Site (hereinafter "Site").

After an exhaustive review and research by HUBBS, the additional information and records you have requested are simply no longer available. I am able to provide you with a response to your request #6 as indicated below.

6. HUBBS operated as a sole proprietorship from 1978 to 1989.

Please note that HUBBS did not in fact operate at the Site from 1978-1989. HUBBS' response, dated January 6, 2012, to your original information request dated November 3, 2011, question # 8, mistakenly stated that HUBBS had operated at the Site from 1978-2006. The correct information is that HUBBS began operating at the Site in 1989, following the company's incorporation, and operated there until 2006.

Very truly yours,

JOHN A. BOYD of
THOMPSON & COLEGATE LLP
